FULFILLING YOUR EXPECTATIONS

The Lynx Difference

Lynx Fulfillment LLC, is a leader in the warehousing and fulfillment industry. Our business model has been designed to deliver fast and accurate order fulfillment services, exceptional technology and dedicated customer service.

We receive, warehouse, pick, pack and ship your products to your customers, retailers, distributors or anyone else you choose, anywhere in the world. We do this with the best guarantee in the industry. All orders received before 2 P.M. ship the same day with 100% accuracy or it's FREE.

LynxPro, our fulfillment management system, is seamlessly integrated with FedEx, UPS, United States Postal Service and Logistics Plus.

LynxPro integrates with any shopping cart offering XML data flow. This allows orders to flow directly from your website to our warehouse in a fast and efficient manner. In addition, we can receive orders via file upload or manual entry. LynxPro allows you to view and manage your inventory and order information in real-time from any computer connected to the internet.

Your inventory is always accurate and ready for shipment. You never have to pack another box.

Even well developed plans get derailed.

You spent a tremendous amount of time and energy working on your strategy to introduce your product or service into the market. You kick-off your campaign using targeted advertising and your web site. You have gone over every imaginable scenario in your mind, and have spent a significant amount of money getting to this point. You have taken great care to make sure every detail is consistent with your selling message.

Three weeks or three years into your sites launch your customers are calling. They want to know where their orders are. Your shipping department is so backed up with customer orders that you have to help out. Your staff is working on a special project that is supposed to take your company to the next level, but you don't have enough extra staff to help you out with shipping. You thought you had enough help to make it through the quarter, but now you are getting concerned because your customers are unhappy. Then you begin to wonder...is this really what I envisioned?

Even the best developed plans can be thrown off course when the shipping becomes too time consuming. Having to rely on other departments in your company to get the job done quickly and efficiently may be difficult when they are focused on their core functions.

This is where Lynx Fulfillment comes in. We warehouse, package and ship your products to anyone you choose, anywhere in the world. Our location allows us to reach 65% of the U.S. and Canadian populations within two business days at ground shipping rates.

Lynx Fulfillment gives you the competitive advantage you need in today's dynamic marketplace. We use the latest technology available to manage your fulfillment. Our services allow you to reduce your labor, space, shipping materials and inventory costs by only purchasing the fulfillment services that you need. We can increase your efficiency and productivity, saving you time and money, and providing you with more control over your inventory.

LYNX FULFILLMENT
